50+ YEARS' EXPERIENCE

Proactive pollution prevention is now more important than ever and the SmartServ Pro II has been developed in line with Kingspan's commitment to Planet Passionate, a series of ambitious climate change targets.

Energy Efficient: A positive environmental impact through a reduced carbon footprint with up to 15 years battery life.*

Sustainability Reporting: Safeguard your reputation by adopting CSRD reporting requirements with comprehensive data management.

Proactive Pollution Prevention: Early fault warnings help prevent the risk of local underground or above ground pollution.

Optimised Planning: Allowing you to reduce your company's carbon footprint and prevent pollution with improved service and maintenance planning.

Scan here for further information on how Kingspan can support your business with the Corporate Sustainability Reporting Directive.

*Subject to standard conditions

SmartServ Pro II

Benefits

The benefits of SmartServ Pro II

Instant, live data on conditioning monitoring, enabling you to effortlessly schedule service and maintenance visits when required.

Total visibility with access to asset information across your estate, anytime and anywhere, courtesy of the new SmartServ Pro II portal.

Convenient via automatic alerts sent directly to you via email, ensuring you are alerted as soon as an issue arises.

With no downtime and a quick set-up via our Watchman Toolbox app, SmartServ Pro II will be working across your estate immediately.

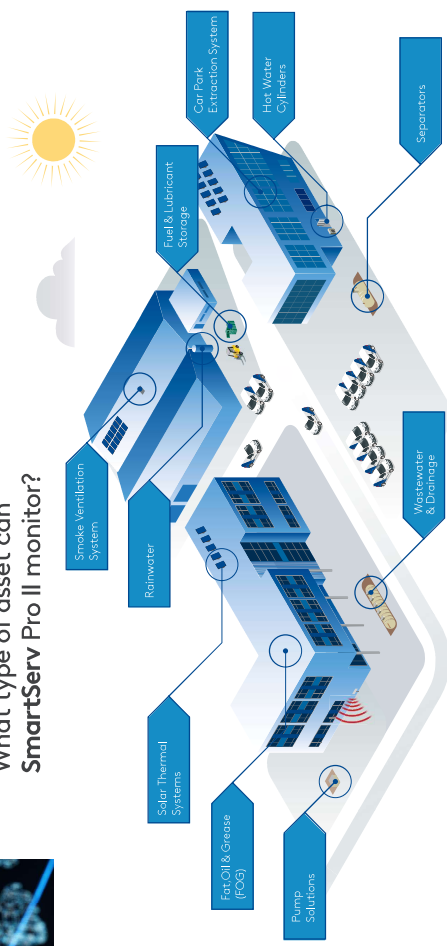

Efficient service and maintenance planning. Reducing your company's carbon footprint, preventing pollution and saving money on unnecessary work.

SmartServ Pro II is compatible with your current BMS system.

What type of asset can SmartServ Pro II monitor?
